Lex ~~My~~ My favourite summer was the one when we went to Novosibirsk. It's the best city I've been to. ~~The streets are very clean, Very clean streets, good infrastructure - this everything~~ it's about Novosibirsk. But my favourite place in this city was, no doubt, the Zoo.

Gr. There is so ~~much~~ ^{any} kinds of animals - cute and little, ~~such as~~ squirrels, hamsters and little monkeys ^{but}. Also there was some big guys = lions, bears, polar bear, ~~and a bison~~. Cages are clean and big, animals are happy. You should definitely visit this Zoo if you love ~~animals~~! If you're lost - that is not a problem, maps are almost everywhere, ~~so you can go back easily. Got hungry?~~ On an entrance to the Novosibirsk Zoo there are cafeterias with some delicious foods in their menu.

~~I~~ ~~person~~ I loved that place, especially the penguins that are in this Zoo. They are so cute! Also i would like to highlight the huge amount of monkeys, some of them are playful, but some don't like people.

Also i would recommend visiting Tomsk, there is some cool places too!

There are many places worth visiting in Kuzbass.
I recommend Tomskaya Pisanitse.

Firstly Tomskaya Pisanitse is nature reserve, and it's very beautiful. Then, you can walk and enjoy feeding and watching a lot of wild animals there. Besides, you can have picnic and take many photos.

For me Tomskaya Pisanitse is good way to relax. It's also wonderful memories that I can share with my friends.

I can come up with a lot of ideas of other interesting places worth visiting in my region. Welcome to Sheregesh if you like skiing or parks and squares.

News are the part of people's lives. A lot of people scroll news on their phones or watch them on TV. A few part of mankind reads newspapers

But why we ought to know about all these news? For my opinion it is really important to know what is happening in the world because if ^{person} you do not know about it ^{person} you will have some problems. For example if someone do not know about the electrifying or water stopping they will have to go to the cafe to find some food.

I think that local newspaper or city's website are sources of reliable information because they are written by people from government, who knows about situation in the city or town. As for me there are lots of sources how to know news and people will make more in the future

I think it is important to know what is happening in the world because people need to know many important things that are happening in their city. People can read the news in newspapers, on the Internet or when they are watching TV.

If people ignore the news they will not learn information about the world and it is a pity when people do not know about what happening in their city.

I think the main sources of reliable information is in TV and newspapers because in the Internet there are a lot of different information and all information can not be reliable.

In the future I think will not be news papers and people will read in information only in the Internet.

→ It is important to know what is happening in the world, to be informed about your city, but not everyone understand this.

In our world you should be interested in news and not only a world one, but local too. If you know the news it may prevent some unexpected situations as rain in a sunny day or turning off the water in your flat, or being killed by someone.

Gr
I am interested in keeping up with the news because it is really helpFull for me. I can read about weather or dif another common thing, but also I can read from the news about robber or prisoner, who has been escaped and not get in trouble.

Gr
It is very sad, that not many people are interested in news. I think in the future it'll finally become the the most important thing. Because * you will not be the good * citizen if you don't know such a big part of your own life. Keep up with the news!

Nowadays in our unstable world it is very important to know what is happening around you. Everyone should be more involved in national and local news to have essential and useful information.

The first reason for taking interest in the news is do not miss important global events which influenced on every person like global warming, war and etc. Secondly, if you want to communicate with people who live abroad, you might be slightly informed about current situation in the world.

The main sources of reliable information are TV programs, Internet resources, podcasts and radio. Also you can find some information from a newspaper, but teenagers prefer ~~to look~~^{to search} something from their mobile phones. Besides, you can talk to a old generation (your family members, relatives) about news ~~and~~ discuss it together and find out better point of view.

To sum up, it doesn't matter what source you will ~~the~~ choose, but it is extremely important to keep up to date and current events which happen in the world.

It is very important to know what is happening in the world. Nowadays people have a lot of resources for being inform about world situation or local events.

Gr I think, every person should be more interested in the news, because it can help you in your daily life, for example information about traffic jam, weather, etc. Also the world's news make you more intelligent. Ignoring and neglecting news have a lot of consequences: breaking the laws, killing rare animals or plants, getting in troubles.

Gr Lex I am keeping up with news, it is important to being inform in world's events and not getting in troubles.

Finally I want to believe that in the future people will be more interested.

Writing task:

I think that it is really important to know about what is happening in the world. In our century we have many sources of information, such as TV-programms, internet websites, where you can find a lot of information easily. But yet most of people are not into it. So why is it really important? ⁵⁵

Sp lex, Gr
The point is that everything is connected in our world. Currency exchange rate, politics, environmental problems - it is all have a big influence on our everyday lives. The price of products in grossery stores, clothes, payments for rents, property and apartament depends on the whole situation in the world. This is the reason why people should check the news and know what is happening in the world.

We have a lot of sources of reliable information and personally I check some websites in the internet. ~~We know about what is happening in our country and in the whole world, but I do it not often.~~

This was my opinion about why do we should follow the news about situation in the world.

I believe that people keep up to date with the world, national and local news of one's own free will. Someone wants^{to} know what happened, someone^{refuses} this desire.

People may be interested in news because of things happening in the world. If you follow the news and know what is happening, you feel safe, but there are those who ignore the news, such people may have their own vision and views on what is happening and therefore do not want to listen to the news.

I think of the main sources of reliable information is ~~a~~ Youtube channels of politicians, who talking only^{the} truth about world news. I'm really believe them and think they are telling the truth. That's why I'm interested in watching the news.

In the end, I want to say that everyone needs to know about what is happening in the world, if we are not interested in this, we will live in a "shell". And in the future this could play a big role, it will be possible to discuss with you any news that has ever happened.

Is it important to know

What is happening in the world?

lex
lex, G
lex
lex
In my personal opinion - yes, it is really important to know in the world in this and any other moment of time and history. If we talk about the reasons to know mostly news in the world - it's really interesting activity. You can study news you are interested in and form your personal opinion about it. The most important and popular sources of news - internet, magazines, television and others. And you can discuss this news with your friends - share opinions with them, and you don't have to discuss things aren't interesting to you.

As I have already said, knowing everything that is happening in the world is really important, it is good thing for thought.

Hello. My name is Arina. I think that a lot of people keep up to date with the news, because they're interested about it. People watch the news to know what is happening in the world, but some people don't care and don't watch the news because they are not interested. Children are not interested in news. The main sources of news are television and news paper. Internet news may not be true. I watch the news sometimes because the situation in the country is unclear right now. I want to tell that watching news it's important, useful and interesting.

I think it's important to know what is happening in the world. People should know what matters around them. Why are they should? Is there some reasons:

Lex, Lex
Firstly, if you are planning something, for example travel or even trip to neighbour city.

Lex, Lex
Secondly, news give themes for discussing, if you know news, you always will know about what talking with your friend or parents.

But not all information in the news is true. There many false information too. So you shouldn't believe in all things. Some news
